

“Balancing between strength and weight, features and affordability, performance and practicality, the 1010 headset is the ultimate headset for telecommunication professionals across all different markets.”

1010

Accutone®

Lexus 1010 Ultimate Headset for Call Centers and Offices

You can have the best of both worlds. You don't need to pay the most to get the best, if you are able to master the art of balance. The luxurious Lexus series telephone headset from Accutone is designed for balance. Balancing between strength and weight, features and affordability, performance and practicality, the 1010 headset is the ultimate headset for telecommunication professionals across all different markets.

Designed to a perfect ratio of plastics and aluminum, the 1010 headset is extremely strong, but at the same time very lightweight. Multiple adjustment pivots allow user to adjust the headset for a perfect fit, no matter your head-size or usage preference. Fine-tuned to perfection, the acoustic performance and noise-cancellation ability surpasses most international audio standards with flying colors.

The Lexus 1010 is also the first headset of its kind to offer an in-line universal compatibility switch, so there's no need for an adaptor or an amplifier, one headset truly fits all telephone systems*. So say goodbye to those confusing bottom cables.

Built with precision and balance, the 1010 headset is the perfect headset.

inspiring people, inspiring change

lexsus 1010

key features

Inline Universal Compatibility. The first in its class to offer inline configuration switch with microphone pre-amplification for direct compatibility to any system telephones. No need for headset adaptor or amplifier.

Aluminum Enclosure & Reinforced Plastics. The use of aluminum and tailor-made plastics provides the 1010 headset strong durability while being very lightweight.

Top-level Acoustics. Proprietary voice-band receiver and special-designed noise-cancelling microphone chamber surpasses the performance of most competitive products.

Award-Winning Design. Striking contrast design of aluminum metal with black plastics in sharp-looking curves is merely the cosmetics behind an exceptional well-build structure.

Perfect Fit and Adjustments. The 1010 headset has the most numbers of adjustable pivots including extendable metallic headband, rotatable aluminum mic boom, flip-able "coffee-breaker" mic boom and rotatable leatherette earpiece.

Landline or Unified Communication. The 1010 is also the only high-end solution that comes with both RJ-modular connection for landlines and USB connection for UC.

specifications

Materials: Aluminum, ABS+PC & POM

Boom Mic: 280° swivel, 15mm extension

Headset Dimension: 18.8 x 17.0 x 5.5 cm

Weight: 90 grams

Speaker Size: 28mm diameter mylar

Sensitivity: 99dB ± 3dB (SPL/100mV@1K Hz)

Impedance: 160Ω ± 20%

Frequency Response: 100 ~ 8000Hz

Mic Dimension: 4mm diameter x 2.2mm high

Microphone Sensitivity: -36dB ± 3Pa

Mic Impedance: 2200Ω

Directivity: Noise-Canceling / Bi-directional

Humidity Range: 65% ± 20%

Cord Length: 1.5m (standard)
2.0m (extended)

Connection: RJ9 or USB (UC)
